

FULL MEMBERSHIP

Full Membership is typically only awarded to surgeons who have successfully completed two years of Post Fellowship Training (PFT) in breast surgery, or other such training as required by the Society from time to time.

Full members are required to submit a minimum case load of 10 cases per annum to the Breast Quality Audit (BQA).

ASSOCIATE MEMBERSHIP

Associate Membership is a category of Membership applicable to surgeons who participate in breast surgery but who do not meet the criteria for Full Membership.

Associate membership may also be sought by overseas breast surgeons and plastic surgeons with an interest in breast surgery. Associate members are also required to submit cases annually to the Breast Quality Audit but currently there is no annual minimum submission requirement.

SPECIALIST TRAINING MEMBERSHIP

Specialist Training Membership is automatically awarded to Fellows who have been accepted onto the BreastSurgANZ Post Fellowship Training (PFT) Program in breast surgery.

AFFILIATE MEMBER

Affiliate Membership includes non-surgeon health professionals involved in breast disease, management, care and/or research.

HONORARY MEMBER

Honorary membership is awarded at the full discretion of the BreastSurgANZ Membership sub-Committee and Council to Members who have made extra-ordinary contributions to the field of breast surgery and/or to the Society.

Honorary Members may include elected visitors who are not Fellows of the Royal Australasian College of Surgeons but who have special interest in any aspects of the understanding and management of diseases of the breast.

Recommendations for Honorary membership can be made to the Membership Committee by any Full, financial BreastSurgANZ member.
